

# TYPICAL CHAIN-SAVING EXAMPLE

Movemakers service can help you regardless of your situation, but it is designed to work best for those people whose sale has fallen through - where the chain of properties has been broken. Movemakers will buy your house at a discounted price (in this example £130,000) but then negotiate all of the other people in the chain to reduce the price of their property. The discount is then shared amongst each link, rather than the person at the end of the chain having to fund the total amount.
